PolyWhey® 3500

Wood Floor Finish

CDPH Standard Method V1.2 COMPLIANT

The new standard in wood floor finishes

- A single-component water based floor finish for commercial and heavy residential use.
- Safe, durable, and easy to apply, it surpasses the competition in both abrasion and mar resistance and will outperform other waterborne coatings in the toughest commercial settings.
- Unlike other wood floor finishes, it meets the highest professional application and environmental standards without compromising performance and durability.

VERMONT NATURAL COATINGS®

PolyWhey® 3500 Professional Wood Floor Finish

FEATURES & BENEFITS

- Single-Component formulation means no wasted finish
- Superior durability and ability to withstand discoloration in high-traffic areas
- Excellent flow and leveling results in easy application and beautiful finished floors
- At 95 g/L, PolyWhey 3500 complies with all US and Canadian VOC regulations
- Fast drying time offers the ability to apply up to 3 coats in one day
- Neutral odor allows for coating in occupied areas without disrupting residents/visitors
- With no carcinogens or isocyanates, PolyWhey 3500 has no flash point and will not contribute toward cancer or fire risks
- PolyWhey 3500 is compliant with CDPH Standard Method V1.2 (the strictest emissions and indoor air quality testing in the nation) with the safest possible results: ≤ 0.5 mg/m³
