PRODUCT COMPARISON

Features	PolyWhey®	Other Finishes – <i>What you get for 2 cents less per sq. ft.</i>
Durability	Very durable — twice the hardness of other waterborne finishes. Water, chemical and scratch resistant.	Weaker impact and gouge resistance.
Ease of Use	Easy application , cleans up with soap and water.	Must use solvent for clean-up.
Safety	No toxic fumes during or after application. Safe for children and pets (low VOC levels – 180g/L). Neutral odor.	Strong odors. Fumes not safe for children and pets (VOC levels up to 700g/L). Many have solvent, ammonia, oil, or strong citrus smells.
Dry Time	Dries in 2 hours or less. Allows for quick recoats to complete a job in one day or less.	Up to 24 hours before recoat.
Coverage	VNC delivers 500-600 sq. ft. per gallon.	Most offer 300-400 sq. ft. per gallon – a third less than PolyWhey.
