

Product Data Sheet

PolyWhey® PaintPlus

Product Description: Blending Vermont Natural Coatings PaintPlus into latex paint creates an extraordinary experience. Our proprietary PolyWhey® technology creates a superior paint finish with unparalleled appearance and hand. From application to finished product, PolyWhey PaintPlus enhances painting with improved flow, leveling, sanding and overall performance greater than paint alone. All PolyWhey coatings are made in Hardwick, in the heart of Vermont's agricultural community.

Typical Properties

Color in Container	Milky White
