VERMONT
NATURAL
COATINGS®

PolyWhey is the next generation of water-based polyurethane, a truly unique finish that is naturally durable, safe and easy-to-use. The PolyWhey formula uses whey protein, a by-product in cheese manufacturing, to displace the toxic ingredients traditionally used in wood finish by functioning as a co-binder and co-solvent. The result is a new category of wood floor finishes with all the durability of oil-based finish and the application advantages of waterborne finish minus the negatives associated with each.

POLYWHEY 3000 WOOD FLOOR SEALER

Recommended for all interior bare woods floors or previously stained/coated wood flooring, PolyWhey 3000 uses the power of natural whey protein to create a professional strength clear sanding sealer. PolyWhey 3000 is easy to apply, dries clear and quickly, and minimizes both grain raise and tannin pull.

- Excellent abrasability
- Excellent adherence properties allow compatibility with nearly all wood surface and stain treatments
- Seals the wood, minimizing grain raise and tannin pull
- Quick-dry sealer with great coverage and easy clean-up

POLYWHEY EZ-PRO WOOD FLOOR FINISH - "The Roller's Choice"

A water-based finish recommended for all residential and light commercial interior hardwood floors. Neutral odor, great coverage, quick dry time, easy cleanup, long life, and exceptionally smooth and easy application make PolyWhey EZ-PRO "The Roller's Choice".

- Single component. No limited pot life and no wasted finish.
- Excellent flow and leveling, ideal for roller application.
- At 210 g/L, complies with all US and Canadian VOC regulations
- Fast drying and curing offers ability to apply up to 3 coats in one day
- Available in satin, semi-gloss, and gloss

POLYWHEY 3500 WOOD FLOOR FINISH

For all commercial and heavy-traffic residential interior hardwood floors, PolyWhey 3500 Wood Floor Finish provides outstanding mar and scratch resistance and stands up to the rigorous cleaning required of daily use. A neutral odor, great coverage, quick-drying, easy cleanup and long life make PolyWhey 3500 a premium, environmentally smart topcoat.

- Single component. No limited pot life and no wasted finish
- Premium formulation yields premium durability
- At 95 g/L, complies with all US and Canadian VOC regulations
- Available in matte, satin and semi-gloss

POLYWHEY MVP SPORT FLOOR FINISH

A superior, high gloss, single component finish formulated exclusively for use on gymnasium and other hardwood sport floors. Durable and easy to maintain, PolyWhey MVP Sport Floor uses proprietary PolyWhey technology to achieve uncompromising performance, outstanding mar and scratch resistance and low VOCs (<95g/l).

- At 95 g/L PolyWhey MVP complies with all US and Canadian VOC regulations and is safe for all environments
- Excellent flow and leveling results in easy application and beautiful finished floors
- Neutral odor offers option to coat in occupied areas
