

# VERMONT NATURAL COATINGS®

## END GRAIN SEALER

*Prevent water absorption of the ends of all types of wood including green logs with eco-friendly water-based End Grain Sealer. One coat protects against splitting, end checking and decay. The long lasting, non-wax formula waterproofs and stabilizes wood from warping, helps resist mold, mildew stains and rot.*

### Superior Durability

Premium durability with our innovative new formula.

### Safe For People and Pets

No harsh fumes, low odor, waterbased, low VOCs.

### Made in the USA

Contains agriculturally sourced and sustainable ingredients.

### Ultra-Low VOCs

Complies with VOC laws in all 50 states and Canada.

### Green Innovation

Made from the latest in green technology. Carbon neutral.

## END GRAIN SEALER

In an industry where toxins are the norm, Vermont Natural Coatings has found a better way. Unlike most sealants that sit on the surface, End Grain Sealer uses nanotechnology to penetrate deep into wood. This creates a breathable, flexible barrier that becomes part of the cellular structure, preventing water from seeping in while allowing moisture to escape. End Grain Sealer unique formula has a higher level of solids, allowing you to coat once and be done. This means the product lasts twice as long but takes half the time to apply. End Grain Sealer is an innovative new product for a changing world, one that places renewed importance on our future. Vermont Natural Coatings: delivering coatings that are safe for people, pets and the planet.

*Durable • Safe • Easy to use*

# VERMONT NATURAL COATINGS®

## END GRAIN SEALER

Vermont Natural Coatings End Grain Sealer lets wood breathe and allows moisture to escape while sealing and waterproofing wood. Provides years of protection with just one coat.

### RECOMMENDED USES:

For use on bare, unfinished, or green wood. Not for use over other coatings.

Available in Quarts,  
Gallons and 5 Gallons

- Can apply on green wood
- Chemical and water resistant
- Paintable
- Cleans up with soap & water
- Nontoxic, ultra-low VOCs
- Non-flammable
- Surpasses all environmental standards in the US & Canada
- Non-film-forming, clear formula won't discolor wood

**NON-WAX FORMULA**

### PREPARATION AND APPLICATION

**SURFACE PREPARATION:** Use on bare, unfinished or green wood. Surfaces must be clean, dry and free of any grease or wax residue.

### APPLICATION:

- 1) Stir well prior to use. Do not thin.
- 2) Always test finish on a sample piece of wood to confirm desired appearance. For best results apply when relative humidity is between 40% to 60%. Do not apply if temperature is below 35°F/1.67°C.
- 3) Using a brush, pad or spray gun apply one coat. Two coats may be required for very porous wood.

**COVERAGE:** One Gallon will cover approximately 200-300 sq. ft. depending on porosity of wood.  
**VOC ≤ 2 g/L**

### TECHNICAL DATA

<i>Color in Container</i>	Milky White
<i>Clarity (Dry)</i>	Crystal Clear
<i>Chemical Resistance</i>	No visual defects
<i>VOC</i>	Coating: ≤2 g/L
<i>Solvent</i>	Water
<i>Flash Point</i>	None
<i>Freeze/Thaw Stability</i>	Stable after 3 cycles - Keep from freezing
<i>Pot Life</i>	12 -18 months from date of manufacture
<i>Dry Time</i>	1-2 hours under normal conditions
<i>Clean Up</i>	Soap and hot water
<i>Odor</i>	Slight odor
<i>Maximum Cure</i>	One week
<i>Coverage</i>	200-300 sq. ft. per gallon
