SECTION VI: SPILL, LEAK & DISPOSAL PROCEDURES

Steps to be taken in case of spill or leak:

Contain spill. Small spills absorbed on suitable absorbents, air dry then disposed in the trash. Larger spills should be collected as liquid or absorbed. Clean-up may be accomplished by flushing water if appropriate or remove contaminated soils. Place in appropriate containers.

SECTION VII: HANDLING AND STORAGE

Ventilation:	Sufficient to keep vapor concentration below limits in Section 2
Storage:	Has shelf life of 12 months. Keep container closed. For industrial use only. Protect from freezing.
Advice on safe handling:	Wear proper protective equipment. Avoid breathing dust. Avoid contact with skin and eyes. Wash thoroughly after handling. Store in a dry place. Away from excessive heat, in original or similar waterproof containers. Keep containers tightly closed when not in use..
Further info on storage conditions:	Store in a cool, dry, well-ventilated area. Keep container sealed when not in use. Keep from freezing. Protect from extreme heat and cold.

SECTION VIII: EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering controls:	Does not necessitate specific or particular measures, provided general health and safety procedures are respected
