

# The Vermont Natural Coatings Story

Thank you for your interest in Vermont Natural Coatings Böhme hybrid, natural oil wood finishes. Böhme is a water-based natural oil exterior line of finishes designed for project specific application based on wood species and type of project. Böhme technology has been available in Switzerland for more than 150 years. Vermont Natural Coatings, in partnership with Böhme, now manufactures and distributes Böhme throughout North America. Like all Vermont Natural Coatings finishes, Böhme is very low in VOC, contains no toxic ingredients and is safe for people, pets and the environment.

I started Vermont Natural Coatings in my hometown of Hardwick, VT from a conviction that the choices we make about materials used in our homes, schools and workplaces should include consideration for health and the environment. Vermont Natural Coatings has grown by building strong relationships with store owners, contractors, and homeowners. Each connection is based on providing the very best wood protection, while making application and living conditions dramatically better.

## BÖHME

SWISS QUALITY  SINCE 1866

### REVOLUTIONARY

### NATURAL OIL AND WATER HYBRID

*Premium Stain & Finish*

NEW COLORS!

### BoMol Exterior Trim Stain

Protects wood from damaging UV rays and delivers a paint-like surface build with the penetration of a stain. Bomol is ideal for use on **trim, doors, windows and siding** and can be used on new and pre-stained wood.

NEW COLORS!

### Ligno Exterior Wood Stain

Penetrates the wood to provide premium exterior protection with excellent flow and uniform color. Ligno is for use on **all exterior applications except for decks and stairs** and can be used on new and pre-stained wood.

NEW COLORS!

### Terra Plus Exterior Deck Stain

Provides lasting protection against moisture, mold and mildew with a strong resistance to foot traffic. Terra Plus is for use on **decking and exterior stairs** and can be used on new or properly prepared decks.

NEW COLORS!

### Aging Stain

Aging Stain is a premium exterior wood treatment that provides an instant aged appearance while protecting and stabilizing the wood structure. For use on **new or bare exterior wood**, Aging Stain evens out differences in wood tone without requiring a pre-treatment or topcoat.

## PRE-TREATMENT PRODUCTS

### Suncare 900

Protects the lignin in wood and provides enhanced UV protection. Suncare 900 is an exterior pre-treatment for **new or bare softwood**. It penetrates deeply to provide a beautiful uniform look and increases the life of the topcoat.

### Hydro-Oil Primer

Stabilizes the wood structure and extends the life of bare exterior wood. Hydro-Oil Primer reduces the effect of water marks, provides a more even topcoat application, and protects the topcoat from tannin bleed. Ideal for use on **new or bare cedar and hardwoods**

## INDOOR USE

### Sun Warden UV Protection

Prevents discoloration and darkening caused by UV light on white woods. Ideal for new or bare interior wood. **For use on interior ceilings, floors, furniture, cabinets and walls.** Enhanced water and chemical resistance.

TWO INNOVATIVE COMPANIES  
*with a Shared Mission*

Vermont Natural Coatings' revolutionary technology and 150 years of Böhme experience combine to deliver the safest, highest quality coatings in the world.

All Vermont Natural Coatings Böhme products contain less than 30g/L VOC, are available in quarts, gallons and 5-gallon pails, and clean up with soap and water.
