www.vermontnaturalcoatings.com

All Vermont Natural Coatings products meet the strictest environmental standards in all 50 states and Canada.

PolyWhey[®] Floor Finish

This durable, safe clear wood finish resists water, chemicals and scratches. Easy to apply on bare wood or as a topcoat. Dries quickly, non-yellowing, durable, and cleans up with soap and water.

Available in quarts, gallons and 5-gallon pails.

Sheens: Matte, Satin, Semi-Gloss

PolyWhey[®] Furniture Finish

This clear finish is recommended for all interior wood. Durable and safe for application on furniture, trim, toys, cupboards, tables and doors. Can be applied over oil-based stain or finish. Dries quickly.

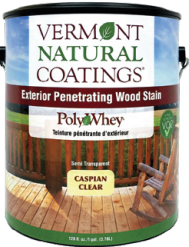

Available in quarts, gallons, and 5-gallon pails.

Sheens: Satin, Semi-Gloss, Gloss

Exterior Penetrating Wood Stain

NEW COLORS!

Delivers color into wood for lasting beauty, waterproofs, and provides protection against mold, mildew and UV rays. Exterior Penetrating Stain with PolyWhey[®] technology is a durable, element repelling stain, sealer and topcoat for siding, fences, furniture & other outdoor wood surfaces. One hour dry time.

Available in quarts, gallons and 5-gallon pails.

ROYAL CHERRY

GOLDEN CEDAR

LAKESIDE CEDAR

AUTUMN RED

BALSAM GREEN

GARDEN GREEN

Penetrating Water Proofer Infused with Juniper

Stabilizes and seals wood from the inside, extending wood life by controlling moisture flow to reduce mold, mildew and decay. Penetrating Water Proofer is clear, allowing wood color to age naturally. Non-toxic, zero VOCs, and cleans up with soap and water. Juniper is nature's most powerful natural wood preservative. Penetrating Water Proofer is ideal for decks, siding, docks, fencing and all outdoor wood projects.

Available in quarts, gallons and 5-gallon pails.

All-in-One Stain & Finish

NEW COLORS!

Delivers vibrant color and uncompromising durability. Easy to use with soap and water cleanup. Establishes new performance and environmental standards in the stain & finish category with less than 30g/L VOC. Not recommended for use on floors.

Available in quarts, gallons and 5-gallon pails.

Sheen: Satin

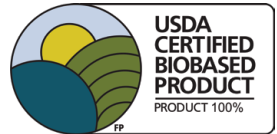

Hemp Oil Finish

NEW

Delivers a beautiful, natural oil tone without the harmful ingredients found in most solvent-based and oil-based finishes. Hardens as it dries, providing a warm grain-enhancing appearance. Use on new floors or furniture, or older or previously coated indoor wood surfaces that need refreshing. $\text{VOC} \leq 0 \text{ g/L}$
Available in quarts, gallons and 5-gallon pails.

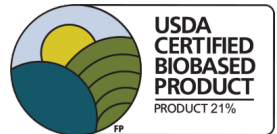

Pure Matte Ultra-Flat Finish

NEW

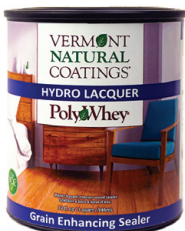

A premium interior wood topcoat that provides a natural flat matte appearance while protecting the wood underneath. Made with PolyWhey® and plant-based resins, it is both safe and natural. Excellent chemical and water resistance. Low $\text{VOC} \leq 225 \text{ g/L}$
Available in quarts, gallons and 5-gallon pails.

Hydro Lacquer Grain Enhancing Sealer

NEW

Resembles a warm oil look for floors, furniture, and all other interior woods. Hydro Lacquer is made with Decovery® plant-based resins. This product is part of our Climate Cool™ program. Low $\text{VOC} \leq 250 \text{ g/L}$
Available in quarts, gallons and 5-gallon pails.

Neptune Wood Floor Stain

NEW

A professional-grade floor stain that is easy to use and environmentally safe. Multiple color choices to enhance the natural beauty of your wood floors. Recommended for all residential and commercial interior wood floors. A neutral odor, smooth and uniform coverage, quick drying time, easy cleanup. Low VOC.

Available in quarts and gallons.

Sheen: Satin

Pre-Stain Wood Conditioner

Prevents streaks and blotches when staining interior wood projects. It is an essential treatment to prepare bare wood for uniform acceptance of Vermont Natural Coatings Stain & Finish. No odor, less than 30g/L VOC and quick drying.

Available in quarts.

Heirloom Fine Finish

Delivers the luxurious look and feel of hand rubbed finishes. Apply multiple coats on furniture, cabinets and craft items for a rich, durable finish. Easily applied with cloth, synthetic brush or pad. Non-yellowing and less than 30g/L VOC.

Available in quarts.

Sheen: Satin

Vermont Natural Coatings Wood Cleaner

Biodegradable, safe and strong, this cleaner removes dust, dirt, grease and stains from all wood surfaces. Ideal for residential and commercial use. Comes in handy 32 oz. spray and gallon concentrate. 32 oz. also available in Non-Toxic Wood Cleaner With Microfiber Floor Mop Kit.

ALL NEW LINE!

PREMIUM SEALERS & CLEANERS

DynaSeal[®] Concrete & Masonry Sealer

NEW

Dynaseal Concrete & Masonry Sealer's revolutionary new nanoparticle technology creates a flexible non-film forming breathable barrier that penetrates below the surface to protect from water damage and decay. Dynaseal is a sealer, waterproofer, and primer that provides years of protection with just one coat.

Ultra-low VOC ≤ 2 g/L

Available in gallons and 5-gallon pails.

DynaSeal[®] One Step Wood Protector

NEW

Dynaseal One Step Wood Protector's revolutionary new nanotechnology creates a flexible non-film forming breathable protective matrix that penetrates, stabilizes, and weatherizes wood. Protect from mold and mildew stain, airborne black mold and water damage and decay. Dynaseal is a sealer, waterproofer, and primer that provides years of protection with just one coat. Ultra-low VOC ≤ 2 g/L

Available in gallons and 5-gallon pails.

DynaSeal[®] Multi Surface Sealer Concentrate

NEW

Dynaseal Multi-Surface Sealer Concentrate is a highly effective, multipurpose sealant to waterproof and protect all types of wood, concrete, and masonry surfaces. Revolutionary new nanoparticle technology creates a flexible non-film forming breathable barrier that penetrates below the surface to protect from water damage and decay. Ultra-low VOC ≤ 2 g/L. *Available in gallons and 5-gallon pails.*

PolyRock[®] Concrete Coating

NEW

High-impact-resistant PolyRock Concrete Coating forms an abrasion and mark-resistant gloss topcoat to prevent wear and tear while keeping surfaces looking like new. Delivers excellent adhesion to cementitious materials. For exterior and interior use. Ultra-low VOC ≤ 2 g/L
Available in gallons.

Sheen: Gloss

PolyPlus[®] Exterior Stain Base

NEW

PolyPlus Stain Base, tinted with Vermont Natural Coatings colors, forms a non-toxic flexible protective matrix that penetrates, stabilizes, and weatherizes wood, making it an effective alternative to dangerous wood preservatives. Great for hardwood decks and siding.

Ultra-low VOC ≤ 2 g/L

Available in gallons and 5-gallon pails.

End Grain Sealer

NEW

Prevent water absorption of the ends of all types of wood including green logs with eco-friendly water-based Vermont Natural Coatings End Grain Sealer. One coat protects against splitting, end checking and decay. The long lasting, non-wax formula waterproofs and stabilizes wood from warping, helps resist mold, mildew stains and rot. Ultra-low VOC ≤ 2 g/L

Available in quarts, gallons and 5-gallon pails.

Multi Surface Cleaner

NEW

Vermont Natural Coatings Multi-Surface Cleaner fights mold and mildew stains and airborne black mold while removing dust, dirt, grease, grime, algae, and mill glaze. Prepares hard and non-porous surfaces for application of Vermont Natural Coatings products. Ultra-low VOC ≤ 0 g/L
Concentrate available in gallons.

Ready-to-use formula available in 32 oz. spray bottle.

Superior Durability

Premium durability with our innovative PolyWhey formula.

Safe For People and Pets

No harsh fumes, low odor, waterbased, low VOCs.

Made in the USA

Contains agriculturally sourced and sustainable ingredients.

Ultra-Low VOCs

Complies with VOC laws in all 50 states and Canada.

Green Innovation

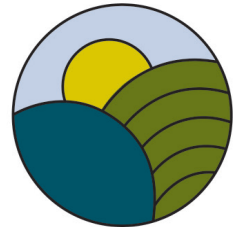

Made from the latest in green technology. Carbon neutral.

In an industry where toxins are the norm, Vermont Natural Coatings has found a better way. Climate Cool program is our promise to source, create and invest in new technologies that produce safer, better products for people, and healthier, more sustainable products for our planet. We replace petroleum and other harmful ingredients with Zero VOC plant-based ingredients for an industrial strength alternative.

Managed by the U.S. Department of Agriculture (USDA), the goal of the BioPreferred Program is to increase the purchase and use of biobased products. Multiple USDA Certified Biobased products are featured in our DIY catalogue. Biobased products are derived from plants and other renewable agricultural, marine, and forestry materials and provide a sustainable alternative to conventional petroleum derived products.

Look for this symbol, which identifies USDA certified biobased products.

THE VERMONT NATURAL COATINGS STORY

Thank you for your interest in Vermont Natural Coatings PolyWhey wood finishes. PolyWhey uses whey protein, a byproduct of cheese making, as its transformative ingredient to deliver safe, durable protection to all your wood surfaces. We manufacture our products in my hometown of Hardwick, Vermont, where my family operates an organic dairy farm. I started the company from a conviction that the choices we make about materials used in our homes, schools and workplaces should include consideration for health and the environment. Vermont Natural Coatings has grown by building strong relationships with store owners, contractors, and homeowners. Each connection is based on providing the very best wood protection, while making application and living conditions dramatically better. I look forward to hearing your Vermont Natural Coatings story and suggestions for new, naturally derived products that reflect our values and commitment to community, the environment and the better whey of doing business. Thank you.
