Wood Rescue Cutting Board Oil

At Vermont Natural Coatings, our products are formulated to meet the highest quality specifications while meeting the safest standards in the industry. Upwards of 50% of our electricity is sourced from renewable resources, such as solar and hydro, through our local energy co-operative. Our packaging is recycled and our products ship from our plant via centralized distribution networks. From renewable energy and materials, to waste diversion, carbon neutrality, and investing in our local community, VNC is committed to carving a path towards the 'right whay' of doing business.

VERMONT NATURAL COATINGS®

Wood Rescue

CUTTING BOARD OIL

By using Wood Rescue, you can extend the life of your cutting boards. Reduces likelihood of cracking and discoloration.

RECOMMENDED USES:

For use on wooden cutting boards, butcher blocks, cutlery and other raw wood surfaces.

Made with mineral oil and organic beeswax blend

- Food grade
- Helps prevent cracking
- Protect from staining
- Grain enhancing
- Easy to apply

Protective • Safe • Easy to use

PREPARATION AND APPLICATION

SURFACE PREPARATION: Wash wooden surface with soap and warm water and scrub well. Rinse and dry immediately.

APPLICATION:

- 1) Ensure wooden surfaces are completely dry. Generously apply Wood Rescue oil onto the wood.
- 2) Using a towel, rub oil onto all sides of the wood.
- 3) Allow the board to dry for 4-6 hours before using. Reapply weekly, monthly, or as needed.

WHY BEESWAX?

Beeswax is a natural substance that has many beneficial uses and functions. When blended with food grade mineral oil, beeswax creates a durable, safe wood treatment that even smells great! Beeswax as a wood treatment has been used for thousands of years, providing protection while highlighting the natural beauty of any wood species.
